Painted doors give an outstanding finish compared to hand painted doors however they can be scratched or chipped by everyday use , refer to the

internal label for care and maintenance of your door , The paint finish is cosmetic and the front panel should be uniform when viewed from 3 meters distance , we offer a 2 year warranty against paint failure, minor blemishes in the finish are inevitable .The rear of the door will not enjoy such a uniform finish by its nature and will have a different level of coating due to the manufacturing process however this does not affect the performance of the product and all doors are supplied galvanized and Painted or galvanized only giving outstanding external use.

The rolling or pressing of steel panels during manufacturing may cause distortion in the steel and while every effort is made to keep this to a minimum, Inevitably some distortion will remain, The powder coating process may make this slight distortion more apparent, Especially under certain lighting conditions.

Doors fitted within 250m of the coast line (where the beach ends and the land begins) and inland estuary are exempt from the paint finish warranty and we recommend a GRP Composite material.
